

Environmental responsibility is one of the core values of Technip. This Charter defines the Group's Objectives in this area and the corresponding Environmental Guidelines.

Our Objectives

- To strive to minimize the impact of our activities on the environment and risks to nature and others.
- To strive persistently and with determination to avoid any environmental incidents.

Management's commitment is a critical success factor in achieving these goals.

Our Guidelines

In order to achieve our Objectives, we have established the following guidelines:

- To comply with applicable environmental legislation and our own standards.
- To set clear and meaningful objectives for environmental performance, placing an emphasis on key indicators.
- To measure our performance and communicate our progress, regularly and openly.
- To hold managers, supervisors and employees accountable for compliance with our environmental management systems.
- To implement environmental management systems which comply with ISO 14001 requirements.
- To use and develop our engineering knowledge to reduce the environmental impact of the facilities we design, build or operate together with our clients.
- To combine our engineering and technology know-how with sound assessment principles in order to minimize environmental impacts and mitigate, as much as is reasonably practicable, residual consequences that may arise.
- To promote employees awareness so that they may integrate environmental considerations into their daily activity.
- To work with our clients, partners and subcontractors to build a common environmental management system on each project.
- To strive to continually improve our environmental performance.
